

In the Abstract

Please amend the Abstract as presented in the underlying International Application No. PCT/EP2004/012054 as follows:

ABSTRACT

~~The invention relates to~~ A fuel cell system which can be used in a mobile manner with a fuel cell unit (1) in order to produce electric energy, and an adsorption accumulator (3) which is associated with a fuel cell unit (1) are provided. ~~Said~~ The adsorption accumulator (3) is used to release heat and interacts in a thermal manner with a heat exchanger (2) which is arranged downstream from the fuel cell unit (1) in a cooling circuit (4, 5) associated with the fuel cell unit. ~~The invention also relates to a~~ A method for operating said type of fuel cell system, especially during a cold start is provided.
